**All Stockists, Distributors, and Trade Partners**

**Subject: Mandatory Downward Revision of MRP for Non-Scheduled Anti-Cancer Formulations as per NPPA Order S.O. 5690(E)**

Dear Partners,

In compliance with the National Pharmaceutical Pricing Authority (NPPA) Order, S.O. 5690(E) dated 17th October 2026, issued under Paragraph 19 of the DPCO, 2013, we have carried out a mandatory downward revision of the Maximum Retail Prices (MRP) across our range of non-scheduled anti-cancer medications.

This revision implements the government-capped trade margin of 30% calculated on the Price to Stockist (PTS).

Please note the following critical operational guidelines:

- **Effective Date:** The revised, lower prices strictly come into effect on **9th November 2026**.
- **Retail Compliance:** No trade partner, retailer, or hospital may sell these formulations at a price higher than the newly computed MRP.
- **Price List Display:** In accordance with Paragraph 25(3) of DPCO 2013, all retailers, dealers, and hospitals are required to prominently display this revised price list on their premises where it is easily accessible to consumers.
The complete product-wise table containing the drug details, pack sizes, pre-revised MRPs, and revised valid MRPs has been enclosed with this letter for your ready reference.

Kindly update your billing systems immediately to ensure complete compliance before the deadline. Please reach out to your respective regional commercial managers if you require any immediate assistance.

We thank you for your continued cooperation in ensuring the smooth transition of these affordable life-saving medicines to patients.

Trusted Pharma Manufacturer
